COUNTRY China

DATE: 25X1A

SUBJECT Military Information: Japanese in Chinese
Communist Army in Manchuria

DIST. A⁷ October 1947

25X1A

PAGES 1

ORIGIN

SUPPLEMENT

25X1X

1. There were three Japanese soldiers in the Artillery Battalion referred to above. In addition, there were eight Japanese attached to the sanitation section of the division and several Japanese attached to the medical section of the 1st Column.

25X1X

2. There is an average of three Japanese among every ten doctors who are attached to the front line field hospital of each column /? of the Korean Volunteer Army in Manchuria/. There are one or two Japanese in each artillery battalion and one or two Japanese in each company of the Signal Corps. The Japanese, mostly technicians, are divided among the various units of the Communist army and do not themselves form any large single group or unit.
